PERSON PROFILE

I'm a dedicated and compassionate nurse with 12 years of experience providing high-quality care to diverse populations in New York City. I earned my Associate in Applied Science in Nursing from New York City College of Technology in 2011 and continued my education to receive a Bachelor of Science in Nursing and a Master of Science in Nursing with a focus in Clinical Leadership from Saint Xavier University. I also hold a Post-Master's Certificate in Advanced Practice Nursing, qualifying me as a Family Nurse Practitioner.

Throughout my career, I've focused on delivering excellent care in various healthcare settings, specializing in acute care, ambulatory care, and case management across orthopedics, neurology, and gastroenterology. I'm certified in Ambulatory Nursing and Case Management, and I'm pursuing national certification as a Family Nurse Practitioner. With my diverse background in bedside nursing, outpatient care, leadership, and management, I'm skilled in assessing, planning, implementing, and evaluating patient care.

My effective communication and collaboration skills have contributed to positive patient outcomes and a supportive work environment. I've been involved in Magnet Redesignation at NYU Langone Medical Center and the American Nurse's Association Mentorship program. My clinical interests include promoting health literacy, LGBTQ+ health equity, and improving patient education outcomes.
