

## **VOLUNTEERS NEEDED TO CULTIVATE EDUCATIONAL RESOURCES FOR AAMN.ORG**

AAMN is looking for members who are willing to help identify and build content for the educational offerings found on AAMN's website.

An adhoc education committee is being formed to cultivate these resources for members. Content can range from articles to webinars to workshops providing continuing education credits for nurses. The goal is to provide content that will be seen as providing additional value to individual memberships, particularly among RN members.

Anyone who is willing to assist with this project is invited to submit your name, professional affiliation and contact information via email to [info@aamn.org](mailto:info@aamn.org).
